Eyjafjallajökull * Volcano Model
(not to scale)
* pronounced Aya-feeyalla-yurkul

What you will need:

1. Cut around the 3 parts of the model — you may need to get an adult to help you
   A. Ash plume
   B. Base
   C. Summit and crater
2. **Ash plume**: fold and glue the two halves together
3. **Base**: cut out the hole in the middle of the base
4. **Base**: fold along the thick black lines and glue tabs to make-up the model like a box lid. Allow to dry.
5. **Summit and crater**: fold as shown in the images on page 2. Half the ‘cone’ points downwards.
6. Glue the summit and crater to the base as shown in the image on page 2.
7. Glue the ash plume to the summit and crater
Cut out the pattern
Fold along the straight lines
Glue tabs as indicated

1. cut out the pattern
2. fold along the straight lines
3. glue tabs as indicated

Fold along centre and glue halves together

Folding the summit & crater

Summit & crater assembled

The finished model

A. Ash plume

Making the base and ash plume
